# THE STORY...

A Certified Women's Business Enterprise (WBE), Ex-Cell Kaiser is operated by Janet Kaiser. Ex-Cell was established in 1933 by Janet's grandfather, Joe Goldberg. Mr. Goldberg was an inventor, manufacturer, and distributor of various products that served the Motion Picture Industry, creating items like Carbon Arc Lamps, projectors, vending machines, and other theater supplies.

In the 1930's Joe started Ex-Cell on Chicago's Movie Row area in the vicinity of Wabash Avenue and Roosevelt Road, initially manufacturing "Sand Urns" and Cigarette "Smoking Stands" for movie theater lobbies. Morton Goldberg, Joe's son, joined his father at Ex-Cell in the 1940's after serving in the army during WWII; he then expanded the product line to include a broad array of products for the commercial market.

Today, Ex-Cell continues to grow aggressively through innovation and product development. Investments in technology—including high-tech robotics and laser cutting—have allowed Ex-Cell to automate certain steps in the manufacturing process. These automations, coupled with the abilities of skilled craftsmen, helps Ex-Cell maintain its longstanding tradition of providing high-quality, Illinois-produced products for facilities worldwide.

# THE ADVANTAGES...

AMERICAN-MADE

SUSTAINABLE

UNBEATABLE

CUSTOMIZABLE

EXPERIENCED

WOMAN-OWNED

# THE COMMITMENT...

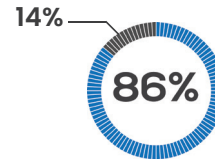

## Our commitment to sustainability begins with CLOSED-LOOP RECYCLING.

Plastic can only be recycled once or twice before being cycled down due to degradation of material. A "one-and-done" type of material that goes into landfills at the end of its service life.

Metals, including steel, can be recycled an infinite number of times, and therefore never contribute to landfill waste.

- 86% of Ex-Cell's materials are sourced within 75 miles of our Franklin Park, IL facility
- 14% of Ex-Cell's materials are sourced outside of 75 miles

Material Used in Our Products	% Recycled Content	% Post Life Recyclability	Locally Sourced?
Cold Rolled Steel	30%	100%	Yes
Stainless Steel	60%	100%	Yes
Aluminum	70%	100%	Yes
Powder Paint*	0%	0%	Yes
Vinyl Decal	0%	0%	Yes
Packaging	40 - 50%	100%	Yes

\*Powder-coat Paint Finishes contain no volatile organic compounds, and its over-spray is 98% reclaimable.

# INDOOR RECEPTACLES

# METRO COLLECTION

The Metro Collection offers a high-end aesthetic without the high-end price tag. This self-contained receptacle system provides sleek and stylish waste collection options, available in single, double, or triple stream configurations, with an ample 18-gallon capacity per stream.

For an even more refined offering, the Metro XL Collection features one or two stream units with almost identical capacity, but a slightly smaller footprint. These versatile capacities and streams ensure a cohesive upscale appearance while catering to the diverse needs of any facility.

- **18-, 34-, 36-, and 54-gallon capacities**

- All units feature removable, 18-gallon LLDPE plastic liners with lift handles & bag retention notches
- Liners meet UL94 flammability standards

- **Standard Lid Options:**

- 8" x 8" Square Beveled Trash Flat Lid
- 5" Diameter Circular Opening Flat Lid
- 12" X 2" Slot Overlapping 5" D Circle Opening Comingle Flat Lid
- 12" x 6" Square Trash Flat Lid with Ashtray\*

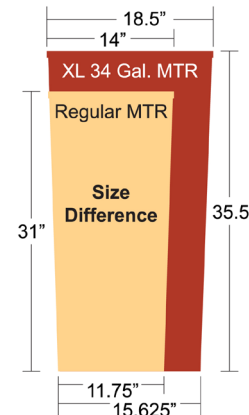

\*Only compatible with RC-MTR-34 units

- **Standard Body Finishes:**

- Hammered Charcoal (HCCL) with SILVER decals
  - Hammered Copper (HCPR) with WHITE decals
  - Stainless Steel (SS) with BLACK decals\*
- \*Special Order Only for RC-MTR-34 units

- **Comes with complete decal kit including:**

- Designations for: Recycle, Paper, Plastic, Cans/Bottles, Compost, Trash, and Waste
- Plastic squeegee for quick and easy application

# INDOOR ARENA 51 SERIES

The Indoor Arena 51 Series units come with an Aluminum Dome Top lid featuring a 12" D opening. Each receptacle's body showcases a distinctive diagonal perforated pattern. Customers can choose between a satin stainless steel finish or a durable TGIC powder-coated finish, available in Recycle Blue Gloss (RBL) or Black Gloss (BLK).

Arena 51 Series receptacles offer various graphics options, including standard TRASH and RECYCLE graphics, custom graphics, or no graphics at all.

With the freedom to customize the receptacle body and lid colors, the laser-cut shape, and the inner color panel, each ARENA-51 unit can have a unique and distinct appearance, ensuring no two units look the same!

- **51-gallon capacity**
  - Leak-proof, removable LLDPE plastic liner fits snugly over the edge of the receptacle
  - Liners meet UL94 flammability standards
- **Standard Lid Options:**
  - Aluminum Dome Top w/ 12" D opening
  - Included Security Lanyard keeps lid attached to receptacle
- **Standard Finishes:**
  - Stainless steel, Recycle Blue Gloss (RBL), Black Gloss (BLK)
- **Three built-in leveling feet included**

*We also offer Outdoor Arena 51 Series receptacles – pg 32-33*

# LIQUIDS DISPOSAL COLLECTION

Introducing the mobile Liquids Disposal Collection, featuring three specialized units: The LD-10 SS designed for liquids collection, the LDR-24 SS for recycling collection, and the LDW-24 SS for waste collection. Clear laser-cut imagery on each receptacle makes it effortless to identify the waste stream.

Emptying the 10-gallon capacity LD-10 SS is a hassle-free process, with no risk of janitorial injuries. Simply wheel the unit to a sink, detach the quick-connect valve, drain the contents into the sink, and replace the valve when finished.

For optimal use, place these receptacles in high-traffic locations, especially before points of entry where outside liquids are not permitted.

## • LD-10 SS

- 10-gallon capacity
  - LLDPE-FDA resin retention tank inside the base unit
- 16-gauge stainless steel, all-welded construction
- Sink is 10.75" D and 4.5" deep & features a snap-in screen
- Rear Access Door with quarter-turn latch closure
- Easy view window for monitoring liquid levels
- Unit ships with four heavy-duty casters

## • LDR-24 SS & LDW-24 SS

- 24-gallon capacity
- Leak-proof, removable LLDPE plastic liners with lift handles & bag retention notches
- Liners meet UL94 flammability standards
- 16-gauge stainless steel, all-welded construction

## • Standard Lids:

- LDR-24 SS: stainless steel top with an 8" circular opening
- LDW-24 SS: stainless steel top with a 10" square opening

## • Rear Access Door with quarter-turn latch closure

## • Units ship with four heavy-duty casters

# VENUE COLLECTION

The Venue Collection is ideal for multi-stream waste sorting. Clear laser cut graphics on each round unit are highlighted by different colored liners – black for TRASH, recycle blue for RECYCLABLES, or hunter green for COMPOST. Plus, each unit's lid is powder coated to match its liner, make sorting simple, even with just a passing glance.

The half-round unit features a hinged lid to make servicing simple, and with a 20-gallon capacity the Venue Collection boasts one of the largest half-round receptacles on the market!

## VCT-33 PERF SS/VCR-33 PERF SS/VCC-33 PERF SS

- **33-gallon capacity**
  - Leak-proof, removable, LLDPE plastic liner with lift handles & bag retention notches
  - Liners meet UL94 flammability standards
- **Standard Lid:**
  - Flat Lid with 8" circle opening
  - Included Security Lanyard keeps lid attached to receptacle
- **Standard Finishes:**
  - Stainless steel & Black Texture (BLX)
  - Stainless steel & Recycle Blue Texture (RBLX)
  - Stainless steel & Hunter Green Texture (HGX)
- **Full wrap-around rubber gasket on bottom to protect unit and floor surfaces**

## VC2234 HR SS

- **20-gallon capacity**
  - Leak-proof, removable, LLDPE plastic liner with lift handles & bag retention notches
  - Liners meet UL94 flammability standards
- **Standard Lid:**
  - Flat Hinged Lid
  - Platinum (PLTNM) or Black Texture (BLX) powder coat finish
- **Bottom of unit features protective leveling feet**

# COLISEUM

The Coliseum is tailor-made for spaces where people gather, making it an ideal choice for high-capacity venues that require efficient waste management. With its impressive capacity to hold 86 gallons of trash and recycling, the Coliseum effortlessly handles full-capacity crowds.

Choose from premium Pebble Black or Hammered Grey powder-coat finishes, adding a touch of sophistication to the modern lines of the design. The customizable stainless steel panel allows you to create a sleek and industrial look that seamlessly blends into any arena or gathering space. The Coliseum offers a perfect balance of functionality and aesthetics, catering to the needs of large gatherings with ease and style.

- **86-gallon capacity**
  - Two removable, 43-gallon LLDPE plastic liners with lift handles & bag retention notches
  - Liners meet UL94 flammability standards
- **Standard Lid:**
  - Two 12" beveled square openings
- **Standard Finishes:**
  - Pebble Black Gloss (PBG) and Hammered Grey (HMG)
- **Lift-assist struts make for easy opening and closing**
- **Flush-mounted pocket pull handles on both sides help with mobility**
- **Four heavy-duty casters sold separately**

RC-IND2 PBG/SS

RC-IND2 HMG/SS

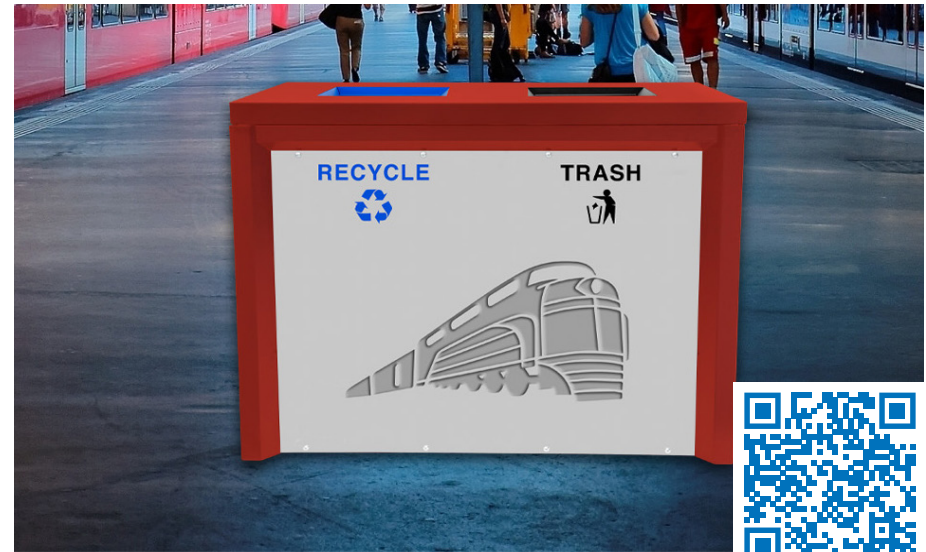

RC-IND CASTERS

Consider purchasing a set of four rubber casters for your Coliseum unit!

The soft rubber won't scratch floor surfaces, making them a superb addition to any RC-IND2 unit.

Use the pocket pull handles to move the unit around with ease

# PREMIER SERIES

The Premier Series, a highly sought-after collection, consists of 33-gallon capacity units available in five standard powder coat colors, along with a sleek satin stainless steel option. Equipped with stainless steel funnel tops, these units make waste disposal effortless as gravity guides all waste-related items directly into the receptacle, leaving no room for unsightly items to linger on the rim.

The smooth surface and easily removable, seamlessly fitting funnel top create endless possibilities for customization. Whether you prefer bold colors, custom decals, or vinyl wraps, the Premier Series receptacles can be transformed into stunning works of art. Elevate the aesthetics of your waste management solution and make a statement today with the Premier Series.

- **33-gallon capacity**

- Leak-proof, removable LLDPE plastic liner with lift handles & bag retention notches
- Liners meet UL94 flammability standards

- **Standard Lid:**

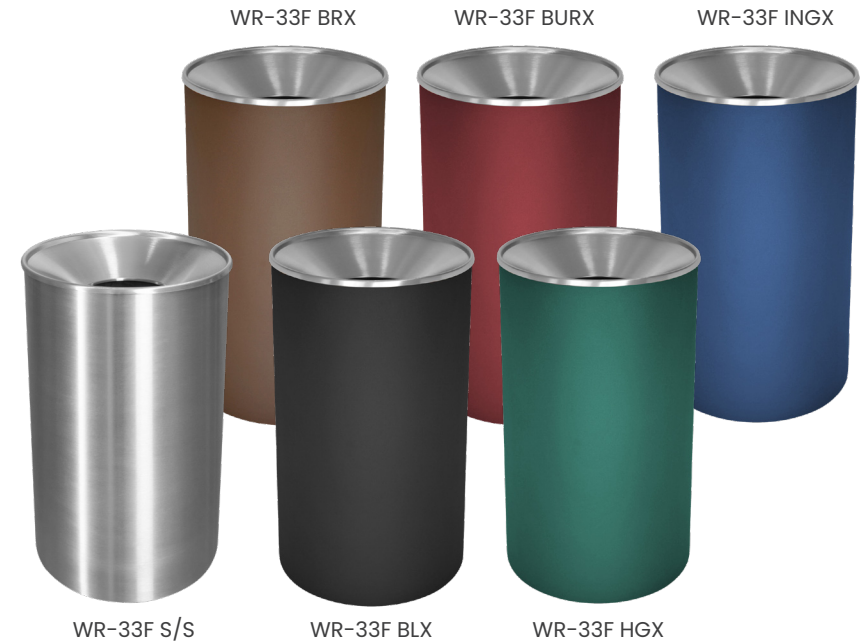

- Brushed stainless steel Funnel Top with 8" circular opening

- **Standard Finishes:**

- Stainless steel, Black Texture (BLX), Brown Texture (BRX), Burgundy Texture (BURX), Hunter Green Texture (HGX), Indigo Texture (INGX)

- **Durable steel features seamless construction**

- **Four heavy-duty rubber feet on bottom of each unit**

# INTERNATIONAL COLLECTION

The International Collection offers a diverse range of five 18-gallon receptacles, designed in either powder-coated steel or stainless steel that beautifully complement any public space. Each unit showcases a decorative double-beaded base with a wrap-around rubber gasket on the bottom, ensuring both the receptacle and floor surfaces remain protected from scratching.

The International Collection not only enhances the aesthetics of your space but also prioritizes functionality and durability for long-lasting performance.

- **18-gallon capacity**

- Leak-proof, removable LLDPE plastic liner with lift handles & bag retention notches
- All liners meet UL94 flammability standards

- **Standard Lid Options:**

- Flat Top with 8" circular opening
- Café Style Dome Top with 6" circular opening

- **Standard Finishes:**

- Stainless steel Body & Black Texture (BLX) Lid
- Black Gloss (BLK) Body & Black Gloss (BLK) Lid

- **Fire-safe bodies with double-beaded bottom and rubber gasket trim**

- **Café Style unit comes with pre-applied RECYCLE decal**

# OUTDOOR RECEPTACLES

Don't overlook the importance of managing waste collection outdoors. Find the perfect solutions for any outdoor space, including building entryways, parks and recreation facilities, outdoor sports stadiums, concert venues, and more! With dome-topped, covered, and uncovered receptacles available in a variety of capacities, Ex-Cell Kaiser makes outdoor waste management effortless for both high and low traffic areas.

**ALL OUTDOOR RECEPTACLES.....FEATURED ON PAGES 30-45**

## OUTDOOR KALEIDOSCOPE COLLECTION

The newest addition to the Ex-Cell Kaiser product collections features a perforated body, easy lift-off LLDPE dome top, and waste-identifying decals on all four sides of each unit. Liner bags are held in place with recessed handles of the dome top lid. The 36-gallon capacity make these units ideal for medium to high trafficked areas.

The Outdoor Kaleidoscope Collection.....pg 30-31

## STREETSCAPE COLLECTION

Four heavy-duty, all-steel units that are available with or without a canopy top are manufactured to withstand the elements. 37-gallon units are available with a comingle opening and decals for recyclables, while 45-gallon units are available with or without a door for simple servicing.

The durable, all-steel units.....pg 34-37

## NATURE SERIES

A nature-inspired, laser cut pattern of either leaves or bamboo stalks on soft green or rich bronze receptacles are suitable for any outdoor location. The color-coordinated liners not only complement the receptacles but also enhance the laser-cut messaging, ensuring waste stream identification is effortless and seamless!

A series inspired by the great outdoors.....pg 38-39

# NATURE SERIES

Step into the wilderness with our Nature Series, where aesthetics meet functionality. Each unit is thoughtfully powder coated in beautiful colors inspired by nature: a soft, earth-toned Malachite (MAL) or a rich Bronze (BRZX). The laser-cut graphics in either a LEAVES or BAMBOO STALKS pattern further enhance the design element, making these receptacles a perfect fit for any outdoor location.

Whether it's parks, nature centers, outdoor shopping centers, or beyond, the Nature Series instantly transports you to the wilderness as soon as you set eyes on it. Enjoy the beauty of the great outdoors while maintaining a clean and eco-friendly environment with our Nature Series waste management solutions.

Designed for high-traffic locations, the Ellipse is a high-capacity outdoor unit equipped with all the essential features for effortless servicing. Its durable aluminum canopy top effectively protects the waste streams from rain and outdoor elements, while the locking front doors offer easy access for maintenance personnel and ensure unauthorized entry is prevented.

With three standard finishes and the option to add silk-screen aluminum plates that clearly identify waste streams, the Ellipse is the perfect waste management solution for any bustling outdoor space.

- **90-gallon capacity**
  - Two removable, 45-gallon LLDPE plastic liners with lift handles & bag retention notches
  - Liners meet UL94 flammability standards
- **Standard Lid Openings**
  - 12" Square Trash Opening
  - 8" Square Recyclables Opening
- **Standard Finishes:**
  - Black Gloss (BLK) & Hammered Grey (HMGX)
  - Malachite (MAL) & Bronze (BRZX)
  - Sand (SAND) & Bronze (BRZX)
- **Aluminum Canopy Top keeps the rain & snow out**
- **Pre-applied, easy-to-read white graphics for designated waste streams**
- **Additional silk-screened aluminum plates denoting TRASH & RECYCLABLES are included for lid application if desired**
- **Keyed Locking Front Doors come standard with each unit**

# FACILITY MAINTENANCE

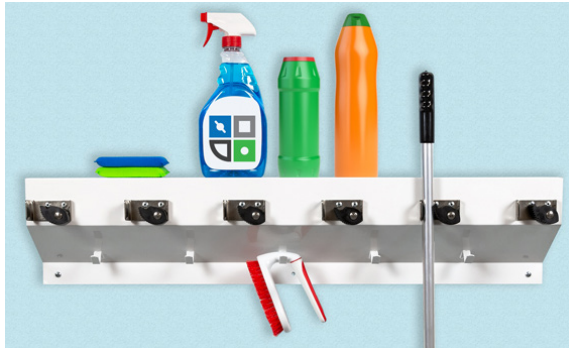

The Clincher Mop and Broom Holder (333-6 WHT2) is constructed of heavy-duty steel and finished in White Gloss (WHT) powder coat paint. The Clincher has a 4" deep shelf and five hooks that provide additional storage, while six heavy-duty, spring-activated rubber cams hold mops & brooms. Grip caps and mounting hardware included.

The 333 Series Channel Mop and Broom Holders (333-4) are constructed of heavy-duty steel. Heavy-duty, spring-activated rubber cams effectively store mops & brooms. Mounting hardware and Grip caps are included.

Dustpans (304 BH) feature a tubular handle with ergonomic grip and self-closing lid.

# SANITIZING WIPES DISPENSERS

SW-1528 TWL SS BLX

SW-DSP-01 SS

## Bagged Wipes Dispenser

The stainless steel Bagged Wipes Dispenser (SW-DSP-01 SS) is compatible with center-pull bagged wipe rolls that are up to 9.5" in diameter. The locking flat top lid can be easily removed when it comes time to refill the wipes, and the unit features a 5" diameter circular trash opening for disposing of used wipes.

Pair this unit with the Sanitizing Wipes Companion (SW-1528 TWL SS BLX) for the ultimate towel service location.

SW-KD HMG

## Bucket Wipes Dispenser

The Bucket Wipes Dispenser (SW-KD HMG) is designed for hygienic, touch-free use with center-pull bucketed wipes to create a healthy, germ-free environment. Informative decals denoting WIPES are placed on two sides of each unit.

The Bucket Wipes Dispenser is the same size as a 24-gallon Kaleidoscope to allow for flush positioning next to a KDSQ or KDHR unit for a more sanitary waste collection station.

# SMOKERS' OASIS

The Smokers' Oasis is a world-renowned cigarette receptacle and a best-selling product, trusted by thousands of facilities worldwide! Made of all fire-safe steel, this unit includes a removable 4.5-gallon galvanized steel bucket with a bail handle and a durable powder-coat finish. Unlike plastic models, it will not burn or melt, making it a safe and reliable choice, without the need for sand or water.

The top is securely fastened to the base with a sure-fit, industrial stainless steel hasp-closure. For added security, a padlock, security lanyard, and in-ground anchor kit are available for separate purchase. Trust the Smokers' Oasis to efficiently handle cigarette disposal with its robust and fire-safe design, ensuring a clean and tidy environment for your facility.

# CIGARETTE RECEPTACLES

501 CPDR-FLIP

## Pedestal Smoking Urn

The Pedestal Smoking Urn (501 CPDR-FLIP) is a stylish retro-style smoking urn with a Platinum (PLTNM) powder coat finish. This unit is favored by casinos, private clubs, and smoking lounges for its large capacity, removable & self-closing flip top with stainless steel blades, and weighted base.

63-BG BLX

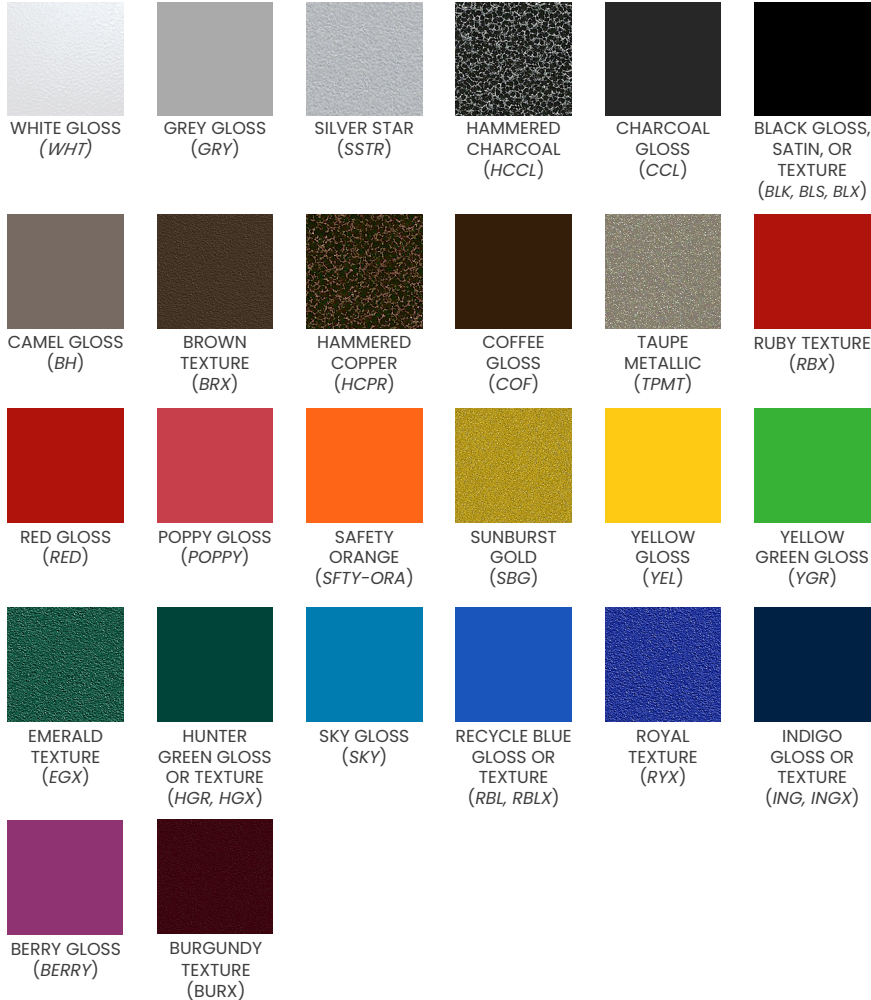

63 BLX

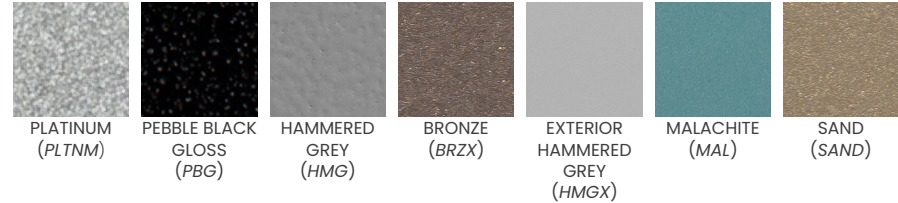

## Tabletop Ashtrays

For smaller spaces, the flip top, tabletop ashtray (63-BG BLX) is an excellent choice. It features a Black Texture (BLX) powder coat finish and a self-closing top that conveniently empties ashes into the unit. The optional bridge allows for up to three cigarettes to be rested, keeping the area clean and tidy. Both products offer practical and efficient solutions for smoking areas, ensuring a pleasant experience for smokers and a clean environment for everyone.

# STANDARD POWDER COAT FINISHES

# PREMIUM POWDER COAT FINISHES\*

Not all finishes are suitable for outdoor applications. Please check with Ex-Cell Kaiser before committing to any finish not currently offered as a standard for outdoor products.
